Skills

Programming Languages

- HTML
- CSS
- JavaScript
- Python

Frameworks and Tools

- Github
- Mocha

About

I am an aspiring self-taught Full Stack Web Developer. My interests are in Javascript and Python. I am passionate about creating websites that are simple to use and accessible to people who are able-bodied and differently-abled.

Education History

Bsc Electrical Engineering   Feb 2014 - June 2017
University of Cape Town

- Incomplete due to disability (partially-sighted)

National Senior Certificate   Jan 2007 - Nov 2011
Queenstown Girls' High

- Received seven distinctions

Work Experience

Recurse Center(New York)   3 Jan - 25 Mar 2022
Participant

- RC is a three-month coding retreat where you teach yourself coding principles and work on projects on your own and with your colleagues. My projects are available on my Github account and online portfolio
- During the three-month batch, I followed the Full Stack Web Development on Codecademy
- I learnt the following concepts: HTML, CSS(Flexbox, CSS Grid, Media Queries), JavaScript (Object Orientated Programming, Functional Programming and Classes) and Test Driven Development
